Introduction

Welcome to the North Coast Media Ad Portal!

The North Coast Media Ad Portal is designed for quick and efficient submission of your ad materials. You will receive immediate feedback and advice for fixing problems. The ad portal is web-based, so no FTP is required. You can upload and view your ads anywhere, anytime.

This service is free, and it's easy to get started. This user guide will take you through the process step-by-step.

The screenshot shows the login interface of the North Coast Media Ad Portal. On the left, under the heading "First Time User?", there is a link "Click Here" in orange text, followed by "or Click Here if you already have a SendMyAd account". Below this is a "Sign in here" section with a small icon, a "Username" field, a "Password" field, a "Remember me" checkbox, and a "Sign In" button. At the bottom left of the login section is a link "I cannot access my account". On the right side of the page, under the heading "Minimum Requirements", there is a list of browser and system requirements. Two orange arrows originate from the left side of the page: one points to the "Click Here" link, and the other points to the "Sign In" button.

→ New Users begin with Step 1 on the **following page 6**.

Existing Send My Ad (SMA) users can review the North Coast Media Ad Portal details on **page 6**, or jump right in at Step 2 on **page 7**.

Creating an Account

STEP 1: Creating an Account

Registering for a free North Coast Media Ad Portal account is the first step. To get started, go to **<http://northcoastmedia.sendmyad.com>** and complete the initial information page.

If you are an existing Send My Ad (SMA) user, you can use your existing registration by clicking here.

If you are a new user, complete the information fields to setup your account. Asterisks (*) denote required information.

This box **MUST** be checked to continue!

Once you've provided all information and have agreed to the standard terms of service, click the **"I accept, create my account"** button at the bottom of the form, and you will automatically be logged into your account.

System Requirements

To use the North Coast Media Ad Portal you must have these minimum requirements:

- Firefox 7.0, Safari 5.0, Google Chrome, or Internet Explorer 8.
- Adobe Flash Player 10+ to upload and trim ads; available here: <http://get.adobe.com/flashplayer>
- JavaScript must be enabled
- Cookies for sendmyad.com must be accepted
- Minimum screen resolution of 1024 × 768

File Requirements

All advertising material must be single page PDF *(if your ad is running as a spread, you must export your file as a one page PDF file by clicking on the “spread” box when exporting.)*

PDFs should conform to the PDF/X-1a specification. However, this is not always possible. If you have any questions regarding acceptable file formats, please contact your Production Manager directly.

Image Resolution

Image resolution must be greater than 225 dpi and less than 25400 dpi.

Low resolution images may not print as sharply as intended, and we cannot be held responsible for the quality of the outcome. If the images in your file were originally high resolution, but are being flagged at a lower resolution, please check your settings, and ensure that your images are not being downsampled when converting to a PDF. If you would like to proceed with submitting a file that contains low resolution images, North Coast Media does allow you to approve the ad despite this warning if you believe the image resolution is sufficient. You assume full responsibility for the print quality of the ad if you approve it.

Document Requirements

If your file has crop marks make sure they are offset at least 18 points or 1/8” (0.125”) to keep them out of the bleed area of the ad.

Total Ink Density should not exceed 300%.

Document cannot have transparency.

Transparencies can introduce problems to your final page, specifically when placing a PDF containing transparent objects into Quark. Quark cannot handle transparent data, and flattens it using its own embedded controls, which may cause unintended results. If you are using an Adobe based design program (i.e. InDesign), please remember to flatten all linked files before directly distilling a postscript or PDF file.

Document cannot be encrypted.

Font Requirements

All fonts must be embedded.

Document cannot contain any of the following font types:

Artificial Outline fonts

MultipleMaster fonts*

**These fonts may not print properly. Some problems encountered with these font types include type defaulting to Courier, or files printing with the jagged appearance of a corrupted font. Remember also that all fonts used should be loaded in your font manager (i.e. Suitcase, ATM and Font Book) before creating your PDF file.*

North Coast Media Ad Portal Dashboard

The “**Dashboard**” is accessed by clicking on the “**Dashboard**” link in the upper left of the navigation bar. Key areas of this screen:

- A** Click on the “**Send Files**” link, under “**Actions**” to send a new ad to North Coast Media. Alternately, you can click on the “**Send My Ad**” button in the black center area of the page.
- B** Click on “**Print Ads**” under the “**View**” section to process a pickup, view uploaded ads, and check ad status. Refer to Appendix: Managing an Ad for more information.
- C** “**Ad Sizes**” allows you to view available publications, ad sizes, and related dimensions.
- D** “**Users**”, “**Groups**”, and “**Company Profile**” links allow you to set up access for other members of your organization.
- E** Click these areas to read the North Coast Media Ad Portal Frequently Asked Questions (FAQs).
- F** Prefer video? Watch tutorials by clicking either of these links.
- G** Get Help at any time by click here. (see **Technical Support** on page 15).

IMPORTANT NOTE: ALWAYS use the system’s “**Back**” button within the interface located in the upper left corner of the screen. Using the button in your browser will back you out of the system, and you will have to log in again and start the entire process over.

Send a PDF

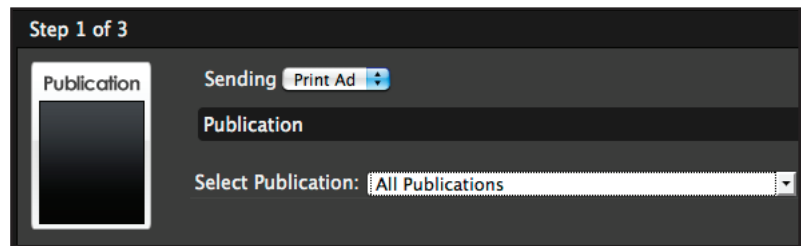

1. From the “Dashboard” view, select “Send Files” under “Actions” from the left column.

2. Select the publication that the ad is running in.

3. Fill out each field listed. You can click the “?” next to each item to view additional information about what is being requested.

4. Select the ad size from the list of ad specs. In many cases, there may be separate entries for the “Bleed” and “Non Bleed” specs. Make sure to select the correct ad size that matches your Insertion Order.

5. Specify a color profile in the “Ad Color” option, pick the one that is most appropriate to your ad. **CMYK** or **Spot**. Use **Spot** on verification from the Publisher that you are running a Pantone color.

Questex Media, LLC Proof Waiver

You have decided to proceed with your advertisement in the American Salon magazine without submitting color proofs for accurate color and content reproduction, (including all fonts, logos, text and art). You understand that by failing to provide color proofs, Questex Media, LLC will not be responsible for the potentially poor or incorrect reproduction of the Advertisement. As a result, you hereby release Questex Media, LLC, its subsidiaries, affiliates, officers, agents, and employees from any and all damages that result from the running of the Advertisement in any of Questex Media, LLC's publications.

You must agree to continue or hit cancel and change proof types.

Additional instructions: (Ad instructions are not contractually binding. Limit: 255 characters)

Choose Ad

6. Specify a Proof Type from the list of available options. If you choose not to send a proof, you must agree to the North Coast Media Waiver pop-up window.

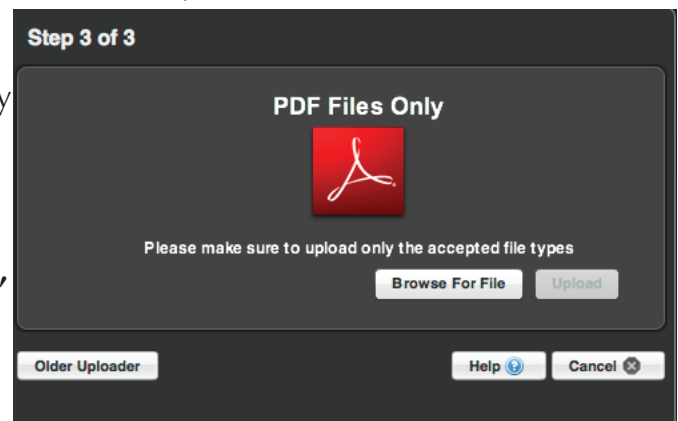

7. Select the Issue(s) that you wish to have your ad run in. Note: you can specify multiple issues by selecting an additional issue from the drop down once the first issue you selected has been added to the list.

8. In the Additional Instructions box you can type in any additional information that the magazine might need.

8. Click “Choose Ad”.

9. In the “Step 3 of 3” window, select “Browse For File” and select the file you wish to upload. Click “Open”.

10. Click “Upload”.

Step 3 of 3

PDF Files Only

Please make sure to upload only the accepted file types

Browse For File **Upload**

Viewing the Preflight Report

Once the file is uploaded it will automatically start to preflight to the North Coast Media specifications. Once the ad is finished processing, you will see a preview of it. You will also see the preflight report with some suggested action buttons on the right hand side.

There are three conditions that the ad may have. Depending on these conditions there will be different suggested action buttons available.

1. **“This Ad has Serious Errors”** This means that the file did not pass preflight. If this happens you can not continue. You must go back to your document and fix the error. Once that is done then you can click the **“Revise Ad Button”** and upload the new file.

NOTE: when reviewing the error if you place your cursor over the text of the error, the object in the preview will highlight.

A) By hovering your cursor over the error message here...

B) This area will highlight and will help you identify where the error is.

2. **“This Ad has warnings”** This indicates that the file has warnings in the preflight report. Please review the warnings on the right hand side of the window. Also, make sure you verify that the preview is accurate, both in positioning and content. If you need to reposition the ad click the **“Reposition”** button under Action (see page 10).

3. **“This Ad Must be repositioned”** This means the trim size of the PDF does not match the specification. You must reposition it before continuing. Click the Reposition button (see page 10).

Viewing the Preflight Report continued

4. If you are satisfied with your results, you can click the **“Approve Ad”** button. Once you have approved the ad the magazine will be notified that they have received an ad and the contact in the job ticket will get an e-mail notification.

5. If you are **NOT** satisfied with the ad’s position or content, click **“Reject Ad”**. If you reject the ad, you will be prompted to give a reason and you will have the opportunity to upload a new file (or select a new ad size).

NOTE: You may only revise a file twice. If you are having difficulties with fixing a file, or need to do multiple revisions, please contact the Production Manager.

Repositioning an Ad

Once you see the preview of your ad after processing, you may see that the file is not positioned correctly. This could be due to the fact that the trim does not match the specification that you chose or it just needs some minor adjustments, for example to move the ad so the type is in the live area.

To Reposition, please click the **“Reposition Ad”** button, the trim tool will now load.

A new screen will appear with tools and you will see your ad with colored boxes around it. The **red box** is the **safety** of the ad. The **green** represents **trim** box and **blue** is the **bleed**, and the **magenta** lines are **centering guides** (these can be toggled on and off).

Using only the **“Move Image”** tool, you can now drag the image of your ad around until it centers within the boxes properly. To help you get more accurate you can use the magnify glass or the zoom slider to zoom in to a particular area of the ad. Then you can use the **arrow keys** on the keyboard to **“nudge”** the ad into place.

Use the hand tool to move your **“canvas”**.

Also, you can turn on **center lines** if you wish they are located under the tool bar.

A screenshot of the "Reposition Ad" tool interface. The main area shows a document titled "Testing.pdf" with a blue background and a screenshot of a Windows XP desktop. The document is surrounded by colored boxes: a red box (safety), a green box (trim), and a blue box (bleed). Magenta lines represent centering guides. On the right side, there is a control panel with various tools and settings. Annotations with colored arrows point to specific features: an orange arrow points to the "Move Image Tool" (a magnifying glass icon), a blue arrow points to the "Move Canvas Tool" (a hand icon), a yellow arrow points to the "Scaling" section (showing dimensions and a scale slider), a red arrow points to the red box, a green arrow points to the green box, and a blue arrow points to the blue box. The control panel also includes a "Toggle Center lines" checkbox, a "Toggle guides" checkbox, a "Lock Image" checkbox, and a "Line Key" section with checkboxes for Trim, Safety, and Bleed.

Move Image Tool

Move Canvas Tool

Scaling - Can increase or decrease the size of your file here

The red box is the safety.
(No text should go outside this box).

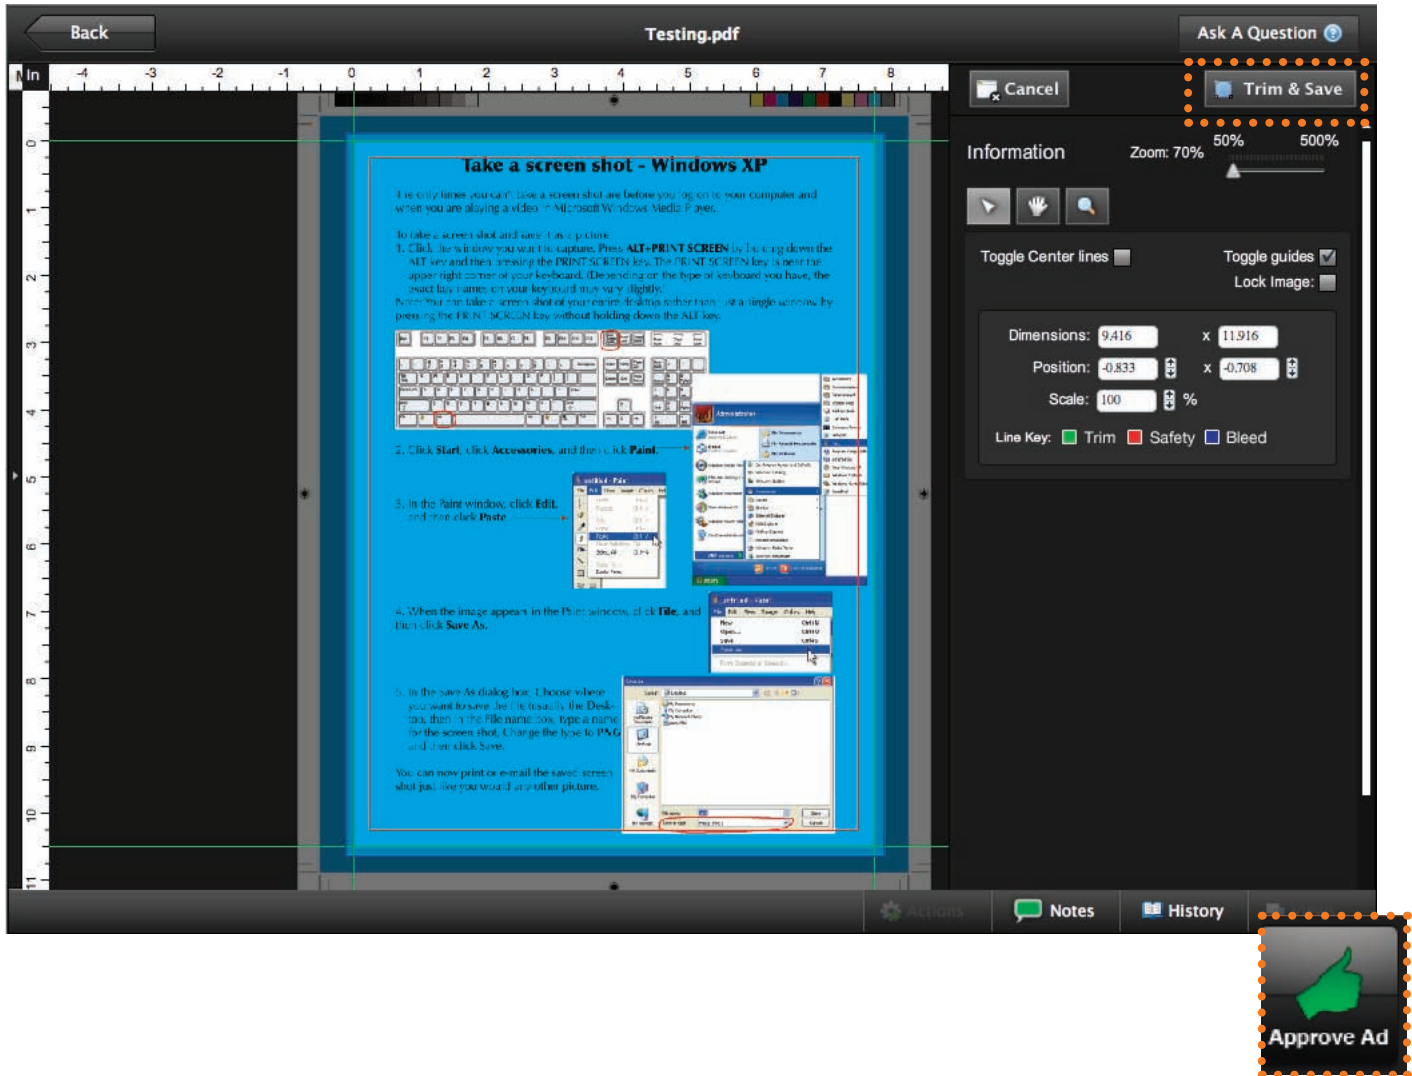

The green box is the trim line.

The blue box is the bleed.

In the example above, the ad is incorrectly positioned. The outer crop marks should line up with the **blue** lines (the **blue box**), and the inner cropmarks should line up with the **green** lines (the **trim box**). All text and critical elements should be inside the **red** lines (the **safety box**). Look at the corners of the ad, if your cropmarks are set up to North Coast Media’s trim size, they should line up with the (**green**) Trim box. Use the arrow keys on your keyboard to **“nudge”** the ad into place. You can also reduce or enlarge your file by using the scale feature.

Repositioning an Ad continued

Once you are satisfied with how the image is positioned, please click the **“Trim and Save”** button in the upper right corner. This will save your positioning and will re-preflight the file. Once you are back in the view screen and are happy with the content and position click **“APPROVE AD”**, this **must** be done or the magazine will not be notified that the ad file is ready.

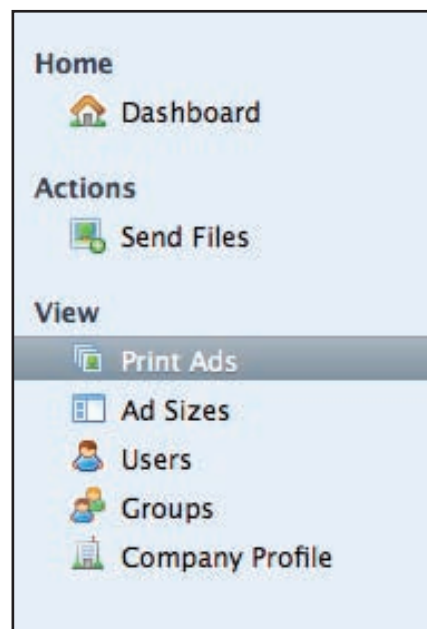

Manage Ads

At any time you can see what ads have been uploaded and what stage they are in.

To manage ads, simply log into your North Coast Media account by going to **<http://northcoastmedia.sendmyad.com>** with your user name and password. Or, if you are already logged-in and viewing an ad, click the **“Back”** button (see bottom of page 6).

On the left hand side of the screen you will see the available options.

1. **Dashboard** - This will take you to a screen that will show you some options of things you can do like send an ad or a revise.
2. **Send Files** - This will start the sending process of a new ad.
3. **Print Ads** - This will allow you to browse all of your ads that you have uploaded.
4. **Ad sizes** - This is a list of available ad specifications for the Questex titles.
5. **Users/Groups/Company Profile** - These are advanced features if you want someone in your organization to modify access right to people in your organization.

To see all your ads simply click the **Print Ads** option under **View**. You will be brought to a thumbnail view of every ad that you have uploaded. If you want to see a list view click the **List** view button.

View by Thumbnail or List

In both views you can see information about the ads. If you click on any ad it will open so you can view it. In the list view you can sort any of the columns by clicking the column header.

By default you are going to see every ad for every publication. If you want, you can filter the list by publications by selecting the **“All Publications”** pull down. Further more you can filter even more by selecting the **“No Issues”** pull down.

Manage Ads continued

Every ad has a “**Stage**” assigned to it. This refers to where it is in the process.

1. “**Advertiser Approval**”- This indicates that the file has not been approved yet. The publication **HAS NOT** been notified until the ad is approved. Further action is required for these ads. Click on the ad to view the preflight report and re-reposition the ad if necessary. Once you are satisfied with the positioning and the preflight warnings click the **APPROVE AD BUTTON**.

Current Stage:

 Advertiser Approval

2. “**Rejected**”- This indicates there is a problem with the ad. Either because it failed preflight or the ad needs to be repositioned. Click on the ad to view the preflight report.

Current Stage:

 Rejected

3. “**Ad Completed**”- This indicates that everything is done and the publication has been notified.

Current Stage:

 Completed

Pickup Ads

It's easy to pickup an ad that was previously submitted through the North Coast Media Ad Portal, and resubmit it to run in another publication.

To pickup your ad, go to the **"Print Ads"** section under **"View"** in the tool bar (as previously discussed on page 12). You can pickup any ad that is in the **"Completed"** stage—be sure to confirm that your ad is in this stage.

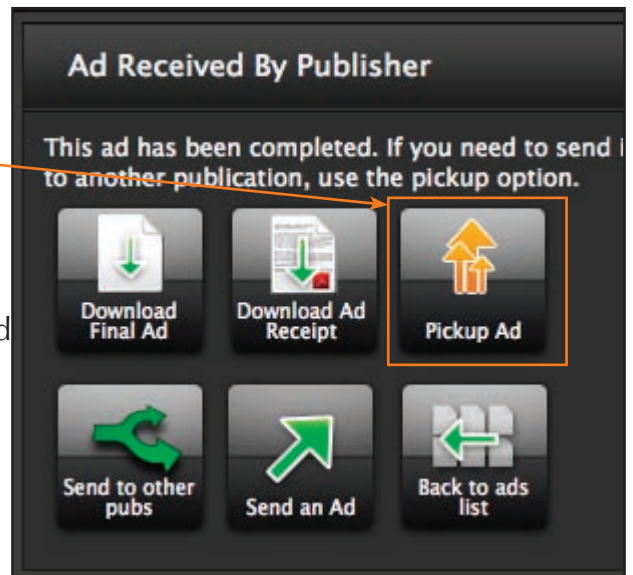

Select the ad you would like to pickup by clicking on its thumbnail.

The ad will then appear in a preview screen. On the right-hand bar, you will see six buttons: choose **"Pick-up Ad."**

Once you've selected this button, follow these steps to complete the pickup process:

1. Choose the publication you want to send the ad to from the drop down menu. Then select your size and issue. If you have any additional instructions, please include them in the last box. Then click **"Confirm Pickup."**
2. Your ad will automatically be preflighted again. If you approve of the ad in the preview box, click **"Approve Ad"** to submit your pickup to Questex.

Step 1: Choose a new publication

Which publication do you want this ad to go to?

Publication:

At least one issue is required

Additional instructions: (Ad instructions are not contractually binding. Limit: 255 characters)

Technical Support

Send My Ad is loaded with lots of video tutorials. At any point during the process you can click on **Get Help**.

Here you will find links to lots of self help resources, including **Frequently Asked Questions (FAQs)**, the SMA Blog, a link to do a **Speed Test** on your internet connection if you are having trouble uploading a file, and lots of **Quick Start Videos** to help you navigate around the site.

There is also the link **Ask a Question**. Here you can send an email to the Technical support staff at SMA if you encounter a problem and can't figure out what you need to do next.

The screenshot shows the Send My Ad dashboard interface. At the top, the 'sendmyad' logo is on the right, with a 'Get Help' link circled in orange. Below the top bar, a navigation menu includes 'Home', 'Dashboard', 'Ad Sizes', 'FAQs', 'Get Help' (circled in orange), 'Blog', 'Reports', and 'Invite Users'. On the left sidebar, under 'Actions', 'View', and 'Manage' sections, various links are listed. The main content area is titled 'Contact Us' and features three buttons: 'Ask A Question', 'Report A Problem', and 'Request An Enhancement'. Below this is a 'Self Help' section with 'Speed Test' and 'SMA Help Manual' buttons. The 'SMA Videos' section, titled 'SendMyAd Pro Publisher Tutorials', lists two videos: 'Inviting Your Customers' (0:44) and 'Managing Customers' (3:05). The footer contains copyright information for 2012 SendMyAd, LLC, a link to Terms of Service, and a 'powered by sendmyad' logo.
